About RAYWEST DESIGNBUILD

RAYWEST DESIGNBUILD is more than just a commercial construction general contractor, we are a team of experts that specialize in both general and upfit construction services across many different industries.

With extensive experience and education in construction management, design, finance, and real estate, our team delivers excellence at every corner and prides itself in helping customers exceed their goals and expectations.

Our Design Build Method

RAYWEST DESIGNBUILD employs a seamless approach to construction, one known as the design build method. Working with a design build company like us means both the design and construction phases of your project are completed under a single contract with one point of contact, and one source of responsibility.

From concept to completion, the design build method creates an open source of communication, inspiring collaboration and innovation among our team of architects, builders, engineers, and subcontractors.

Compared to alternative methods of project delivery, the design build method allows for:

- ✓ Faster Project Completion
- ✓ Cost Reductions
- ✓ Higher Quality
- ✓ Single Source Responsibility
- ✓ One Point of Contact
- ✓ Eliminate Re-Design

Meet the Builders

A photograph of two men, Hector Ray and Greg West, at a construction site. They are both wearing white hard hats with the 'RAYWEST DESIGNBUILD' logo. The man on the left is wearing a white shirt and a dark vest, while the man on the right is wearing a light blue button-down shirt. They are both looking down at a large set of blueprints held by the man on the right. The background shows the steel framework of a building under construction under a clear blue sky.

After completing undergraduate degrees at North Carolina State University, RAYWEST DESIGNBUILD owners, Hector Ray and Greg West, went on to receive their M.B.As alongside each other at Campbell University. In 2004, the pair earned the title of General Contractors and have been leaders in the construction business ever since.

Testimonials

Greg and the RAYWEST team have gone above and beyond to exceed my expectations in a recent facility project in Fayetteville. Starting from an empty shell he built out a professional looking operation, working with a very aggressive timeline that included close collaboration with multiple specialty vendors we had lined up (architects, security, internet/data, sterile clean room, etc.) Greg's communication was clear, timely, and accurate which helped us stay on track with budget and the completion date. I would highly recommend RAYWEST for any commercial construction project in the area."

These guys do great work. Both Greg and Hector are also actively involved in the community."

2 of my favorite builders in one. How awesome is that!! Nothing but the best in customer service on both sides individually. Together you'll be unstoppable!"
